

## Develop your leadership in agile times

Would you like to put your leadership to the test and let the developments of the last few years flow into your everyday life? Experience and reflect, embedded in a game setting, which factors of servant leadership are coherent and feasible for your leadership.

### Shape your path to becoming a servant leader

#### agilerate® Leader supports you when you

... lead teams with agile and/or classical working methods

... want to reflect on and develop your leadership role

#### agilerate® Leader offers you

reflection on your own leadership behaviour,

definition of your individual characteristics of agile leadership through input and impulses,

shaping your personal development path to becoming a servant leader and

exchange with other leaders.

#### agilerate® Leader we for you

We accompany you intensively on your development journey through five modules over a period of 17 weeks. You are in good hands with us, both methodically and personally.

- ✓ Become aware of and work on your understanding of leadership
- ✓ Experience and understand the differences and similarities between agile and traditional leadership.
- ✓ Experience and try out agile working methods
- ✓ Evaluate your individual status quo and work out your own development plan
- ✓ Continuously reflect on your own development with advisors, coaches, peers and the group.
- ✓ Sustain your personal progress through retrospectives
- ✓ Help for self-help

#### Format

With one face-to-face and several remote events, we have designed a hybrid program for you. Furthermore, a digital platform supports your exchange with each other and enables you to keep up.

We would be happy to explain more (than fits on this page): [hello@changefication.com](mailto:hello@changefication.com)
